## **AUTODIA**

### **a pillar of mutually beneficial cooperation between Creators/Rightsholders and Users**

Copyright is the internationally recognised right of Creators to be remunerated for the public performance of their works. At the same time, however, it is a driving force for the development of cultural production and an infrastructure component in every business activity in the communication, technology, catering / food industries, in entertainment services and tourism, as well as in commercial retail businesses that use musical works in the context of their activities.

AUTODIA is a non-profit Civil Limited Liability Cooperative that was established and has been operating legally since 2003, within the framework of the provisions of Law 2121/93 with the sole purpose of managing and/or protecting the intellectual property rights of its members' works, i.e. composers, lyricists and other rightsholders. Also, it fully meets the conditions for legal operation as a Collective Management Organisation defined by Law 4481/17 and the European Directive 2014/26/EU on Collective Management.

The philosophy of AUTODIA is that the legal obligation to pay royalties of the Users for the acquisition of the Public Performance Licence is governed by a transparent, reliable and legal cooperation framework, for the benefit of the Greek and foreign Rightsholders and the music users.

Following the structural changes in the field of music copyright, AUTODIA's vision is to set the basic pillar of solid cooperation between all Creators and Music Users in Greece. AUTODIA represents a very high percentage of the Greek musical repertoire, as well as the whole international repertoire.

Thus, with the support of the International Confederation of Societies of Authors and Composers (CISAC) and the assistance from sister societies, our Organisation is becoming a body with long-term sustainability for the Greek and foreign repertoire and represents a complete proposal regarding the Public Performance Licence, which is necessary for all businesses in Greece that use music in their premises and wish to operate legally.

The AUTODIA's Tariffs is a result of meticulous study of the respective tariffs that sister societies use abroad, always in relation to the represented repertoire, the population and the Gross National Product of each country, the number of users of musical works and the financial reality of the Greek market. In fact, the Tariffs takes into consideration the percentage of the represented repertoire per use category, provides for an adjustment of the cost's increase rate downwards as the user's business is growing, as well as the decrease of the cost using a single percentage for businesses in small towns and islands.

Our aim is to provide Greek businessmen with a proposal allowing them to stay lawful without having to pay more in a regulated market, even with the existence of two Collective Management Organisations of music copyright.

# TARIFF TABLE OF THE COLLECTIVE MANAGEMENT ORGANISATION “AUTODIA”

## GENERAL TERMS

1. The copyright fees (hereafter “ROYALTIES”) that are mentioned in the present Tariff table apply solely for represented musical works / repertoire of the Collective Management Organisation “AUTODIA”, (hereafter “AUTODIA”). Fluctuation of the represented musical works of AUTODIA could possibly bring respective changes to them as well.
2. The ROYALTIES, as they are referred to in the present document, do not include the corresponding VAT or any other taxes.
3. AUTODIA reserves the right to make agreements regarding the Tariff table with better terms for collective bodies, unions of music users, chambers etc., by giving access to their members based on the agreed special terms and conditions applicable.
4. The ROYALTIES are paid in advance for the use of musical works of the corresponding year<sup>1</sup>. For any overdue payment of ROYALTIES, apart from the use for the year they are due, AUTODIA can require payment of extra amounts (management, legal expenses etc.), beyond the due ROYALTIES for the corresponding year, while it reserves any other legal right, in line with the law in force.
5. For users of musical works (health-regulated establishments, businesses etc.) that only operate seasonally (e.g. summer/winter shops etc.), 50% of the due payment will be calculated for annual ROYALTIES, while the corresponding months of operation will be calculated for monthly ROYALTIES, unless otherwise specified herein.
6. In case any user, based on the operation of their business, changes their licence category within the accounting period according to the present Tariff table, must inform AUTODIA within a month of said change. In the opposite case, if such a change is detected by AUTODIA, the issued licence ceases to be in effect until the final amount due based on the new category is paid, and AUTODIA reserves every other legal right, in line with the relevant legislation in force.
7. The users of musical works must comply with Laws 2121/1993 and 4481/2017 and the relevant legislation, as in force.

---

<sup>1</sup>A condition for the validity of the tariff table is to have it posted on the website of AUTODIA (<https://www.autodia.gr/Content/Tariffs?page=companies>) and the Hellenic Copyright Organisation {OPI} (<https://opi.gr/osd/amoivologia-osd>).

Public areas of hotels include all of their spaces, apart from bars, restaurants and event halls, as well as spaces [where artists' live shows take place, beyond the normal operation of the hotel, i.e. for the entertainment of its guests or others, and generally all spaces that are used by third natural and/or legal parties are excluded] and are addressed to persons other than the hotel guests (e.g. cafeterias, entertainment venues, restaurants). The respective tariffs for public performance will be applied for all the above cases, i.e. where these cases actually belong, according to the present Tariffs that apply in Attica and Thessaloniki prefectures. The charge for every common area is separate.

## **II. OTHER USES / EXPLOITATIONS**

### **D. SHOW VENUES**

#### **D.1. CINEMAS**

**D.1.1.** Due ROYALTIES are calculated with a 1% percentage on the ticket price, based on the AUTODIA's repertoire that is being represented, per audiovisual work/movie, minus the taxes for public shows.

**D.1.2.** For the purpose of incorporating music in movies or theatrical plays, the charge is determined only after prior negotiation and consent by the members of AUTODIA.

**D.1.3.** In case the users are unable to provide data (repertoire and/or financial data) for past uses of represented repertoire and after the lapse of one (1) month either from the moment of communicating this requirement or from the end of the annual operation of cinemas, which is particularly defined for cinemas that operate during the summer season as the 30<sup>th</sup> of November of the current year and for cinemas with an annual or winter operating period as the 31<sup>st</sup> of January of the next year, in order to determine the ROYALTIES, the minimum ROYALTIES for every cinema room are defined as follows:

<b>PERIOD OF OPERATION</b>	<b>AMOUNT PER CINEMA ROOM</b>
ANNUAL PERIOD OF OPERATION	4,000€
WINTER OR SUMMER PERIOD OF OPERATION	2,000€

#### **D.2. THEATRES**

**D.2.1.** In cases where music is necessary and connected to the nature of the play regardless it is performed live or not, the minimum ROYALTIES are defined as a 3% percentage on the show's tickets, based on the repertoire of AUTODIA that is represented at each time.

**D.2.2.** For theatrical plays where music is just useful, ROYALTIES are determined as follows:

<b>AUDIENCE CAPACITY</b>	<b>MONTHLY ROYALTIES</b>
1-100	20 €
101-200	40 €
201-300	60 €
301-400	80 €

401-500	100 €
For every 100 seats extra	20 €

**D.2.3.**

AUDIENCE CAPACITY	DAILY ROYALTIES
1-100	10 €
101-200	15 €
201-300	20 €
301-400	25 €
401-500	30 €
For every 100 seats extra	10 €

**D.2.4.** For the purpose of incorporating music in movies or theatrical plays, the charge is determined only after prior negotiation and consent by the members of AUTODIA. In the films/shows these musical works used are not original, they pre-exist and were chosen for the needs of the film/show. This category does not include films/theatrical performances with original music, written especially for them, such as e.g. musicals and performances in general that fall under the "Grand Right". The cases used in adaptation/arrangement of previous musical works will be dealt with in prior consultation with the entitled members of AUTODIA.

**D.3. CIRCUSES/SKATING AREAS/DIFFERENT SIMILAR EVENTS/DANCING AND SIMILAR EVENTS WITH MECHANICAL MEANS**

For every ,1000 seats, ROYALTIES are defined to 30€ daily. For every extra 1,000 seats there is a proportional daily charge of 30€.

## **E. CONCERTS**

### **E.A. CONCERTS WITH NATURAL PERSONS, LEGAL ENTITIES OF PRIVATE LAW AS ORGANIZERS**

Seven percent (7%)	Based on percentage of represented repertory
--------------------	--

#### **BASIS OF ROYALTY CALCULATION:**

**E.A.1.** In case of concerts where there is only income, the basis for calculation of music royalties is the total income (such as tickets, sponsorships, advertising income, etc.).

**E.A.2.** In case of concerts where there are only expenses, the basis for calculating music royalties are total expenses, (as these may be e.g. rental costs, artists' fee costs, sound, lighting, stage rental costs equipment, and other costs, which are necessary for the type of the event etc.).

**E.A.3.** In case of concerts where there are both income and expenses, the basis for calculation of music royalties is the largest amount between them.

#### **E.A.4. CONDITIONS FOR THE GRANT OF THE LICENSE TO PERFORM PUBLIC CONCERTS**

For the obtaining of a Public Performance license from AUTODIA for the use of musical works, an advance payment by the organizers is deemed necessary before the concerts, against the final amount that will arise for the corresponding royalties. The amounts are determined based on the capacity of the venues, as follows:

<b>CAPACITY IN SEATS</b>	<b>AMOUNT</b>
1-500	200€
501-1000	400€
1001-1500	800€
For every 500 seats extra	200€

**In case of non-performance of the concert and if there are none previous debts of the organizer to AUTODIA, the advance payment is returned.**

#### **SPECIAL CASES**

**E.A.5.** In case of inability of apportionment of the income or the expenses regarding a music performance, and at the same time there are other activities too as well as a single ticket to enter the corresponding venue, the daily royalties per stage will be set at €500.

**E.A.6. In case of failure to provide all the necessary date and information (e.g. financial data and/or playlists) within a time period of three (3) months from the organization of the concert/musical event etc., the organizers are required to pay a minimum fee of 7% on the**

total income regardless of repertoire, calculated with the average ticket price of the concert/musical event and the capacity of the performance venue.

**B. CONCERTS WITH LEGAL ENTITIES OF PUBLIC LAW AS ORGANIZERS (INDICATIVELY MINISTRIES, REGIONS, MUNICIPALITIES, LEGAL PERSONS OF MUNICIPALITIES)**

Five percent (5%)	Based on percentage of represented repertoire
-------------------	---

**BASIS OF ROYALTY CALCULATION:**

**E.B.1.** In case of concerts where there is only income, the basis for calculation of music royalties is the total income (such as tickets, sponsorships, advertising income, etc.)

**E.B.2.** In case of concerts where there are only expenses, the basis for calculating royalties are total expenses, (as these may be e.g. rental costs, artists' fee costs, sound, lighting, stage rental costs equipment, and other costs, which are necessary for the type of the event).

**E.B.3.** In case of concerts where there are both income and expenses then the basis for calculation of royalties is the largest amount between them.

**SPECIAL CASES**

**E.B.4.** In case that legal entities of public law organize extraordinary musical events /concerts, whether by mechanical means or live music, of limited extent and without a ticket, the cost of royalties is set at the amount of **€150/per event**.

This category includes extraordinary seasonal events (e.g. Christmas, Carnival), parallel events within the framework of a Festival, traditional feasts organized in collaboration with local associations, provided that the legal entity of public law requests and receives the Public Performance license.

**E.B.5. In case of failure to provide all the necessary data and information (e.g. playlists and/or financial data)** within period of three (3) months from the organization of the concert, the minimum royalty fees are set at a rate of 5% on its expenses regardless of the repertoire represented, if these expenses become known in any way. Otherwise, i.e. in case that the expenses of the concert are not made known, minimum royalty fees are defined as follows:

CAPACITY IN SEATS	AMOUNT
1-500	200€
501-1000	300€
1001-1500	400€
For every 500 seats extra	100€

## C. OTHER EVENTS

### E.C.6. MUSICAL AND DANCE PERFORMANCES

For musical-dance performances, i.e. performances where the dance is the protagonist and is accompanied by music performed either by mechanical means or live, the minimum royalties are set at a rate of 4% of the revenue of the performance based on the repertoire of AUTODIA represented each time.

In these cases, the musical works used are not originals, they pre-exist, were chosen for the needs of the show and the consent of the entitled members of the Self-Management is not required for their use. This category does not include music and dance performances with original music, written specifically for them such as musicals and more generally performances that fall under the "Grand Right".

The cases used in adaptation/arrangement of previous musical works will be dealt with in prior consultation with the entitled members of AUTODIA.

### E.C.7. CARNIVALS

## **H. MECHANICAL ROYALTIES**

### **H.1. MUSICAL CARRIERS OF SOUND AND/OR IMAGE (SALE OF LP, CD, DVD, etc.)**

The ROYALTIES for mechanical recording and reproducing musical physical carriers are defined according to the international Standard Contract that governs the phonographic industry between BIEM and IFPI.

Based on this Standard Contract, the calculation of mechanical rights amounts to 8.712% on the wholesale price (PPD) proportionately (pro rata temporis).

The same ROYALTIES calculation applies to independent producers and is based on the following tariff table for physical carriers that AUTODIA has set and applies.

Price \* 8.712% \* printed copies \* % of represented AUTODIA's repertoire

CATEGORY	CD	LP	MC	DVD	DVD (NON MUSICAL)
TOP	6.00 €	11.00 €	6.00 €	8.50 €	10.00 €
ALBUM 2 PIECES	9.00 €	15.00 €	9.00 €	12.00 €	
SINGLE	3.10 €	5.50 €			
CD EXTRA (CEP) up to 10 works and 30"	4.50 €				
CD up to 2 works	2.35 €				
CD + DVD (music DVD)	11.20 €				
CD + BOOK (single price)	4.80 €				
CHILDREN'S MUSIC	5.50 €				
CD with Children's music + BOOK or METHOD for learning musical instruments	3.30 €	-			
TOURISTIC	4.10 €	-			

- For boxsets with 3 CDs and more wholesale price 3.50€ per carrier
- For boxsets with 3 LPs and more wholesale price 4.50€ per carrier

### **H.2. NON-MUSICAL SOUND CARRIERS (DVD SALE)**

The ROYALTIES for mechanical recording and reproduction for non-musical sound and image physical carriers (on which audiovisual works are recorded) are calculated at a 6% percentage on the wholesale selling price -PPD- (based on the above price list of AUTODIA) proportionately (pro rata temporis).

Price \* 6% \* printed copies \* represented AUTODIA %

### **H.3. MUSICAL CARRIERS OF SOUND AND/OR IMAGE (PREMIUM)**

The term "PREMIUM" applies to physical carriers, either sound or sound and image that are offered for sale together with any kind of publication (e.g. newspaper, magazines) via the

publications' distribution channels. The indication "Premium" or "Not for sale" must be displayed at the carrier.

- In all the above categories, in case of a double or triple carrier boxset, royalties for each carrier are calculated separately.

### **H.3.1. MUSICAL CARRIERS OF SOUND AND/OR IMAGE (CD, DVD, LP etc.) Premium**

In case the sale price of the publication together with the music carrier does not exceed 3€, then mechanical reproduction royalties are calculated on a fixed price amounting to 2€.

*Price 2.00€ \* ROYALTIES percentage 8.712% \* Printed copies \* % of Represented AUTODIA's repertoire*

### **H.3.2. NON-MUSICAL CARRIERS OF SOUND AND IMAGE Premium**

The term "PREMIUM" applies to non-musical physical carriers of sound and image that are offered for sale together with any kind of publication (e.g. newspaper, magazines) via the publications' distribution channels. The indication "Premium" or "Not for sale" must be displayed at the carrier.

*Price 2.00€ \* ROYALTIES percentage 6% \* Printed copies \* % of Represented AUTODIA's repertoire*

### **H.3.3. MUSICAL PHYSICAL CARRIERS OF SOUND AND/OR IMAGE (CD, DVD, LP etc.) - As a subject of sale or trade with printed matter**

In case the price of the publication which is offered for sale with a physical carrier exceeds the price of 3€, then royalties for the accompanying carrier are calculated on the price of difference between the total price minus the publication's price. Example: magazine price 4€, bundle price (magazine + CD) 7€ ► price on which royalties are calculated: 3€.

*Price difference \* 8.712% \* Printed copies \* % of Represented AUTODIA's repertoire*

### **H.3.4. NON-MUSICAL PHYSICAL CARRIERS OF SOUND AND IMAGE - As a subject of sale or trade with printed matter**

In case the price of the publication which is offered for sale with a non-musical physical carrier of sound and image exceeds the price of 3€, then royalties for the accompanying carrier are calculated on the price of difference between the total price minus the publication's price.

*Final price (total-magazine price) \* 6% \* Printed copies \* % of Represented AUTODIA's repertoire*

- In case of a boxset consisting of more than one, then the final price is divided with the number of carriers.
- In case there is no price difference between the publication and the physical carrier, and the sale price exceeds the price of 3€, we consider the amount of 2€ as the publication's sale price.

### **H.3.5. KIOSK SALES**

The ROYALTIES of mechanical recording and reproducing for physical carriers of sound and/or image in cases where a carrier is sold via the publication's distribution channels and is not offered for sale together with a publication, ROYALTIES will be calculated on the product's retail price.

### **H.3.6. PORTABLE DIGITAL STORAGE MEDIA FOR SOUND AND IMAGE (USB, Memory cards, external hard drives etc.)**

The ROYALTIES of mechanical recording and reproducing for physical carriers of portable digital storage media, where musical works are recorded, e.g. USB, Memory Cards, external hard drives etc. are calculated as follows:

- Up to 50 musical works per carrier:

0.03€ \* Total Number of Works \* % of Represented AUTODIA's repertoire \* Number of Copies

- 51 or more musical works per carrier:

0.02€ \* Total Number of Works \* % of Represented AUTODIA's repertoire \* Number of Copies

### **H.4. MECHANICAL ROYALTIES - MECHANICAL REPRODUCTION LICENSE TO DJs**

<b>MUSICAL WORKS</b>	<b>ANNUAL ROYALTIES</b>
1-3,000	€200
3,001-5,000	€300
5,001-10,000	€500
10,001-15,000	€600
15,001-20,000	€750

These royalties concern the mechanical reproduction/storage of musical works by DJs on physical audio carriers/storage media, in the context of exercising their activities and providing their services exclusively and only with the purpose of facilitating them, so that the DJs can use these carriers/storage media themselves, exclusively and solely for public performance of musical works thereof (regardless of whether this reproduction/storage concerns the musical work itself or not).

## **I. LIVE STREAM CONCERTS**

**A concert that is being provided to the public via internet (from an organiser's website or a platform)**

The ROYALTIES that correspond to all concert organisers are calculated based on the gross revenue or expenses that were made, in a percentage of 7% (seven percent) per concert PRO RATA of AUTODIA's repertoire based on the following cases:

**I.1.** In case there is only revenue, the calculation basis is the total revenue. Revenue includes income from views, sponsorships, income from advertisements etc.

**I.2.** In case there are both revenue and expenses, the calculation basis is the total of revenue or the total of expenses, depending on which one is of higher value.

Revenue includes income from views, sponsorships, income from advertisements etc. Expenses include costs for renting spaces, paying artists, costs for sound and lighting coverage, as well as costs for the infrastructure for Stream and Bandwidth.

**I.3.** When there are only expenses, the calculation basis is the total of expenses. Expenses include costs for renting spaces, paying artists, costs for sound and lighting coverage, as well as costs for the infrastructure for Stream and Bandwidth.

**I.4.** The above percentage charges on revenue or expenses cover the ROYALTIES up to 1,000 (one thousand) viewers.

In case the concert views exceed the number of one thousand (1,000) viewers, apart from the percentage payment, the amount of 10 (ten) euros per 1,000 (one thousand) extra views is added.

**I.5.** If there is no revenue nor expenses, then the minimum ROYALTIES based on views are defined as follows:

<b>NUMBER OF VIEWS</b>	<b>AMOUNT</b>
Up to 1000	100 €
1,000- 2,000	110€
2,000-3,000	120€
3,000-4,000	130€
4,000-5,000	140€
FOR EVERY 1,000 EXTRA (VIEWS)	10€

It is highlighted that the charges refer exclusively to concerts that are transmitted live via internet once and not to recorded concerts where the public has free ongoing access via the organiser's website. In this case, the payments must be submitted as per the tariff table of AUTODIA in category G. Online use of Music / Stream On Demand.

Additionally, if there is natural presence of people along with the live online transmission, the relevant licencing charges will be applied too, as they are referred to in the tariff table of AUTODIA in category E. Concerts.

The organiser will be obliged to submit the log files or another piece of evidence from which the number of views of the said online concert occurs validly.

#### **I.1. OTHER LIVE STREAM EVENTS**

In cases of communication to the public via live stream of any other shows/events etc. (apart from live stream concert as per category I), where the public has access once via the organiser's or a third party's website (or platform), the ROYALTIES are paid as per the daily charges of the present tariff table, depending on the category they belong to and up to the number of one thousand (1000) viewers, while the amount of ten (10) euros per one thousand (1000) extra views is also added.

It is highlighted that the above charges refer exclusively to shows/events that are transmitted live via internet once and not to recorded shows/events where the public has free ongoing access via the organiser's or a third party's website. In this case, the payments must be submitted as per the tariff table of AUTODIA in category G. Online use of Music / Stream On Demand.

The organiser will be obliged to submit the log files or another piece of evidence from which the number of views of the said online show/event occurs validly.
